PROFILE

Software developer and founder of Syntax Surge. Builds business websites, web applications and AI workflows, with 20 portfolio projects and 14 hackathon recognitions.

TECHNICAL SKILLS & FOCUS

Languages & frameworks: TypeScript, JavaScript, React, Next.js, Tailwind CSS.

Development: Web applications, responsive interfaces, API integrations, and staff workflows.

Services: Business websites, Custom software, AI & automation, Online stores, Booking systems, Interactive experiences.

SELECTED PROJECTS

MC Dental Station

mc-dental.syntaxsurge.com

A dental clinic website that brings service information, appointment requests, and approved FAQ assistance together, with a workspace for the clinic team.

Appointment requests require final clinic staff confirmation; FAQ assistance uses approved English/Filipino information.

Kaldi Circle

kaldi-rewards.syntaxsurge.com

An NFC café experience with a simple customer page, reviews, loyalty points, and a voucher wallet.

Focus: NFC, Customer loyalty, Next.js

ClipLore.ai

cliplore.ai

An AI creation and video editing product with generation workflows, editable timelines, captions, audio, and export.

Focus: AI video, Creator tools, Timeline editor
